

Changing the FROM: email address in Lاسernet LAC per company ID.

- 2021-06-28 - Comments (0) - Lاسernet General Information

Lasernet

When a user wants to send an email to an anonymous email address, it is possible to change the 'From' field.

The noreply@formpipe.nl needs to be an alias of the account that authenticates to the 0365 SMTP server. So add the **noreply@formpipe.nl** as an e-mail alias to the existing NoReply@formpipe.cloud account.

This allows the set-up up of different **From:** emails in destinations for different companies.
