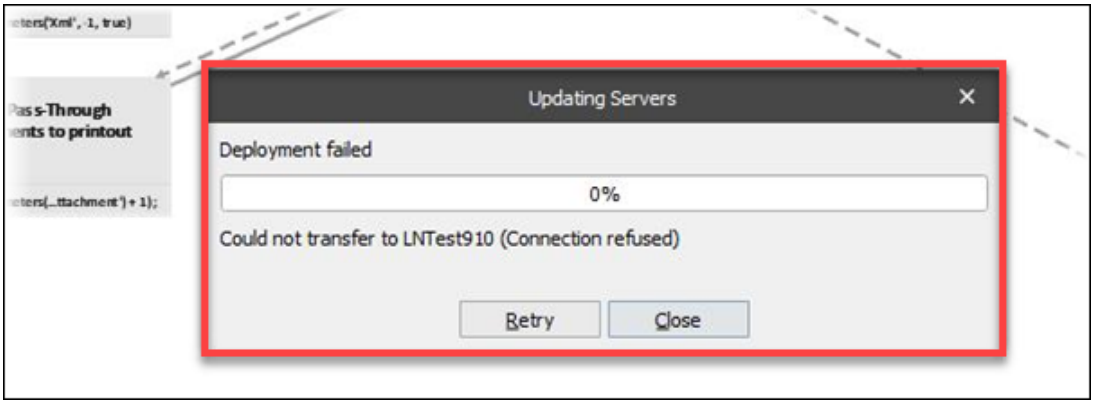
Connection refused when deploying or showing on Monitor

- 2023-12-18 - Comments (0) - Lasernet Developer FAQs

The purpose of this article is to provide a solution to the following error message which can be displayed when deploying in Lasernet Developer:

'*Deployment failed*

Could not transfer to LNTest910 (Connection refused)'



To solve this issue, there are two steps you can take to ensure all settings are correct, as follows:

1. Open and edit the **Server** instance and ensure that the Instance *name* is correct in the **General** tab.

2. Click the **Default** button to ensure the Server runtime data directory is correct
