

Error Message: Assembly containing type Lasetnet.license is not referenced - Server

- 2021-11-03 - Comments (0) - AX2012

This article provides a solution for the following error message which may appear in AX 2012 after the import of the Cumulative XP

Assembly containing type Lasetnet.license is not referenced.

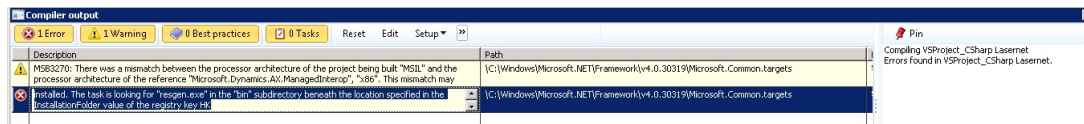

It appears when trying to print to Lasetnet or when you try to open a Lasetnet menu.

Resolution

Try to compile the Lasetnet C-Sharp project. You will may see this compilation error:

Description	Path	Severity	Count	Code
SDK is not installed. The task is looking for "resgen.exe" in the "bin" subdirectory beneath the location specified in the InstallationFolder value of the registry key HK...	\\C:\Windows\Microsoft.NET\Framework\v4.0.30319\Microsoft.Common.targets	Error	2	Err178
MSB3270: There was a mismatch between the processor architecture of the project being built "MSIL" and the processor architecture of the reference "Microsoft.Dynamics.AX.ManagedInterop, 3.05". This mismatch may...	\\C:\Windows\Microsoft.NET\Framework\v4.0.30319\Microsoft.Common.targets	Warning	1	Err178

Or this:

Microsoft Windows SDK is not installed on the AOS server where you try to compile or the ResGen.exe file is located in a different folder than Axapta expected.

Please install *Microsoft Visual Studio* or *Microsoft Windows SDK for Windows Server 2008 and .NET Framework 3.5"* on the AOS. Then try to compile the Lasetnet C-Sharp project.

Additional information

A similar error message could be *Assembly containing type Lasetnet.ReportEngine.*
