Lاسernet

When installing Lاسernet Developer 9.6 on a local machine, the following error message may occur:

Service 'Lاسernet Print Capture 9' (Lاسernet Print Capture 9) failed to start. Verify that you have sufficient privileges to start the system services.

To solve this issue, follow these steps when setting up Lاسernet 9.6:

1. Click **Cancel** on the error dialog and run the **Lاسernet 9.6 Setup.exe** file as *Administrator*, click **Next** and accept the terms and conditions.
2. Click **Custom** to display the *Custom Setup* window.
3. Right-click **Server** and select '*Entire feature will be unavailable*'. Do the same for **Configuration Server** and **Client installers**.
4. Click **Next** and then **Install**.
