Error Message: "The record number does not comply...Restart your job if this is the case."

- 2022-10-14 - Comments (0) - AX 2012 FAQs

This article provides a solution and additional information for the following error which maybe appear in AX 2012:

The record number does not comply with the original number. If the table uses entire table cache, this may be caused by the cache being flushed. Restart your job if this is the case.

This error message occurs when you have multiple AOS and Axapta is trying to synchronize the table cache.

Resolution

As the message indicates, try to re-try your job. For example, if you received the error when trying to run **Fix report** within the Lasernet Elements, then try to fix the report again.

Additional information

You might also see this if you try to add Overlays within the Lasetnet Overlay or Overlay Group menu. This can also occur within the standard Axapta application function.
