How Do I Update My Lasernet License? Alex Clemons - 2025-01-20 - Comments (0) - Lasernet FAQs

Lasernet

After upgrading your Lasernet server to include additional modules and packages, it is necessary to update/reactivate your Lasernet license. This will enable you to benefit from the new features available in your new license. To do this, follow these steps and/or watch our <u>video tutorial</u>:

1. Open the Windows **Start** menu and search for the Lasernet License Manager.

Note

Starting with Lasernet 10.2, the License Manager is divided into the following applications:

Lasernet Server License Manager 10

Lasernet Developer License Manager 10

2. Open the **Lasernet Server License Manager 10** and select the required service instance.

3. In the toolbar, click **Reactivate**.

💼 Lasernet Server License Manager 10								3	×
🔁 Add 👻 🏟 Edit 😑 Re	emove	Activate 🔊	Deactivate 🔊 Reactivate 📋 Copy to	clipboard 🛛 👉 Import	demo license 🛛 💉 Offline 👻				
Instance	Port	Туре	Activation Code	Expires	Mode				
Dev	3279	Service	SRV-EM4U-6707-****		Static				
DevStamping	3280	Service	SRV-EM4U-6707-****		Static				
Lasernet Config		Config							
O Found available activation server.									

The license is now updated.

4. Repeat the process in the **Lasernet Developer License Manager 10** to reactivate the Lasernet Developer license.

Offline Reactivation/update

To perform an offline reactivation, you must first deactivate the server or Lasernet Developer using the offline deactivation process. When the deactivation process is complete, you must perform the offline activation process.

How Do I Check That My License Has Been Updated?

To ensure your license has been updated to include additional modules and packages, you can use the Lasernet Monitor application. Please follow these steps:

- 1. Open the Windows **Start** menu and search for the Lasernet Monitor 10.
- 2. Scroll down the services list and open the Lasernet Monitor 10.

3. Enter your credentials to connect to Lasernet and select the relevant instance from the **Instance** dropdown menu.

4. Click the **Licensing** tab.
