

## How do I Add Fields to XML from the Dialog?

- 2023-11-30 - Comments (0) - Lasetnet FO Connector FAQs

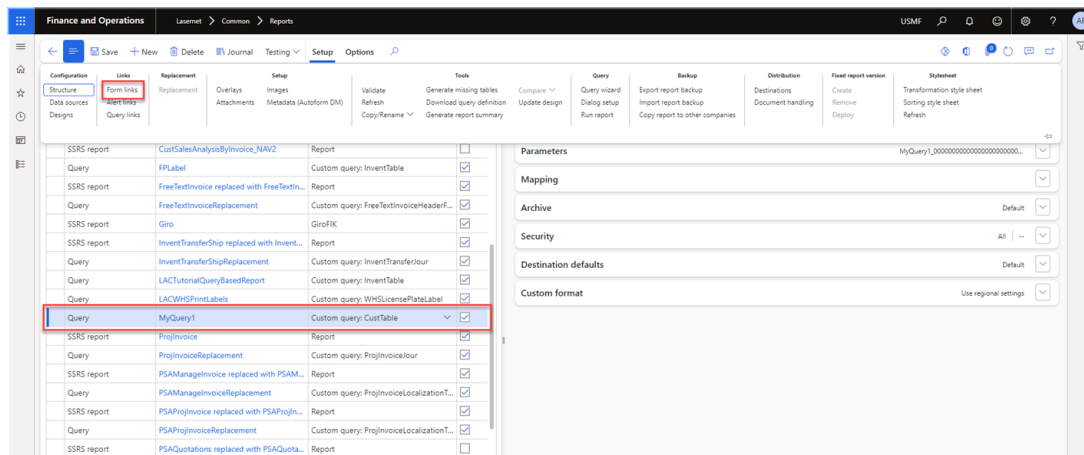

# Lasernet for Dynamics 365

The Dialog function is set up to allow you to determine the look and functionality of the dialog that opens when you try to print a report, where end-users can manually type in values. This manually entered value will then be included in the XML that is produced. You can set up many features, such as mandatory filters, ranges, and much more.

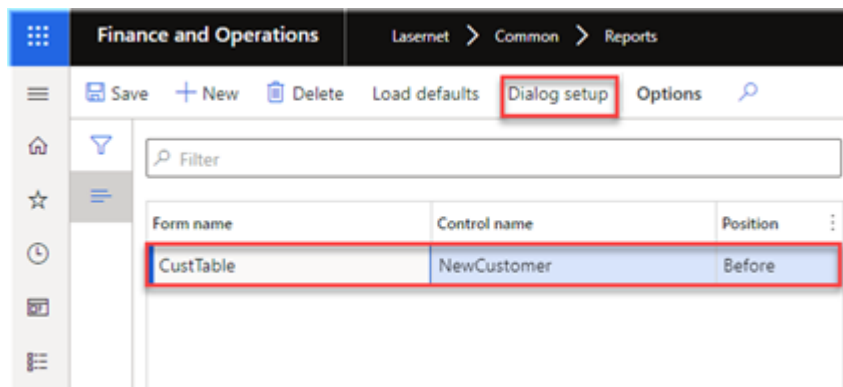

Lasernet FO Connector version: series 6

To set up the Dialog, follow these steps:

1. Navigate to **Lasernet > Common > Reports**.
2. Select your Query, then click **Setup > Form links**.

3. Select the Form link to which you would like to add the Dialog and click **Dialog setup**.

The parameters mapping form is now displayed.

- Expand the **Parameters** section, click **New** to create a new Dialog Control, give it a name and click **OK**.

MYQUERY1 | Standard view ▾

Elements

SECTION

Name	Output	Condition
Labels	Labels	None ▾

Fields

Condition	Name	Output	Expression	Type	Skip testing	Documentation mapping
None ▾	Etabela	Etabela		String	<input type="checkbox"/>	
None	LABEL_CustTable_RecId	LABEL_Record_ID	LanguageText:Record ID	String	<input type="checkbox"/>	
None	LABEL_CustTable_AccountNum	LABEL_Customer_account	LanguageText:Customer account	String	<input type="checkbox"/>	
None	LABEL_CustInvoiceJour_RecId	LABEL_Record_ID1	LanguageText:Record ID	String	<input type="checkbox"/>	
None	LABEL_CustInvoiceJour_InvoiceId	LABEL_Invoice	LanguageText:Invoice	String	<input type="checkbox"/>	
None	LABEL_CustInvoiceJour_InvoiceA...	LABEL_Invoice_amount	LanguageText:Invoice amount	String	<input type="checkbox"/>	

7. Select **Parameter** from the Expression dropdown menu.

Output	Expression
Newvalue	
LABEL_Record_ID	Value
LABEL_Customer_account	LanguageText
LABEL_Record_ID1	Parameter

8. Click the dropdown menu again and select the parameter you previously created in Dialog Control (in this case, My Input).

Output	Expression	Type	Skip testing
Newvalue	Parameter	String	<input type="checkbox"/>
LABEL_Record_ID	Value	Description	
LABEL_Customer_account	Date/number format language	Date/number format language	
LABEL_Record_ID1	Language	Language	
LABEL_Invoice	My Input	My Input	
LABEL_Invoice_amount	My Input		

9. Save the changes, navigate to your form and resend the report. To do so, click the **Lasernet** option on the Menu bar and select **Print**.

The screenshot shows the Microsoft Dynamics 365 Finance and Operations interface. The top navigation bar includes 'Finance and Operations' and 'Accounts receivable > Customers > All customers'. The main menu bar contains 'Edit', 'Lasernet', '+ New', 'Delete', 'Customer', 'Sell', 'Invoice', 'Collect', 'Projects', 'Service', 'Market', 'Commerce', 'General', 'Credit management', and 'Options'. The 'Lasernet' menu is open, and the 'Print' option is highlighted with a red box. Below the menu, there are sections for 'Related information', 'Trade agreements', 'Set up', and 'Quality'. The main content area displays a table of 'All customers' in 'Standard view'. The table has columns for Account, Name, Invoice account, Customer group, Currency, Telephone, Extension, and Is merged. The row for 'US-003 Forest Wholesales' is highlighted with a red box.

Account	Name	Invoice account	Customer group	Currency	Telephone	Extension	Is merged
DE-001	Contoso Europe	90	EUR	01234 56789			
US-001	Contoso Retail San Diego	30	USD	321-555-0160			
US-002	Contoso Retail Los Angeles	30	USD	123-555-0111			
US-003	Forest Wholesales	10	USD	123-555-0159			
US-004	Cave Wholesales	10	USD	123-555-0161			
US-005	Contoso Retail Seattle	30	USD	123-555-0172			
US-006	Contoso Retail Portland	10	USD	123-555-0112			

A dialog window will appear: notice it has an input field with the title of your Dialog Control.

10. Type in a string and print the report.
