How to Export a Report Backup in the Lasernet Connector Nicole Ojeda - 2023-12-01 - Comments (0) - Lasernet FO Connector FAQs

Lasernet for Dynamics 365

The Lasernet Connector for D365FO allows you to export specified reports. This export can then be imported to a different legal entity or a different D365FO environment. To export a report backup, follow these steps:

1. Navigate to **Lasernet** > **Reports** and select the report you would like to export from the navigation list.

2. On the action pane within the **Backup** group, select **Export report backup**.

The Export Report Backup dialog will open.

3. Check any additional reports you want to include in your export from the **Selected Reports** list.

You may want to select both the Report and the custom query report if exporting a replacement query.

Export report backup

	PSAProjInvoiceReplace	Custom query: Projlnv
	PurchPurchaseOrder.R	Report
	PurchPurchaseOrderRe	Custom query: PurchP
	SalesConfirm.Report	Report
	SalesConfirmReplacem	Custom query: SalesCo
