Introduction to Formpipe Cloud

Usama Musthafa - 2023-03-15 - Comments (0) - Formpipe Cloud General Information

Formpipe.cloud

Formpipe.cloud is a true SaaS solution in which customers access their Autoform DM and Lasernet services via the internet either as an individual or complete solution.

Benefits

- Low upfront costs
- No hardware or maintenance cost
- Capex vs Opex Spending model
- Fast deployment times - this allows us to go from a signed contract to a functioning service within days
- No infrastructure knowledge required
- No responsibility for data integrity, resilience, redundancy and uptime
- Product experts managing your services

Scalability

Formpipe. cloud is highly scalable, it allows you to have performance and stability that suits your business needs at all points in your journey.

Security

We've refreshed our architecture to take a zero trust approach to external connections, improved security connections and stricter controls for platform access. Everything is encrypted and backed up, throughout every phase of its processing.

Less Responsibility

Formpipe manages all of the backend hosting infrastructure, security, redundancy and resilience requirements.

As a partner or customer, your only responsibility is to maintain the product configuration so you can concentrate on what's most important to you - delivering solutions with Formpipe products.
