- 2023-11-30 - Comments (0) - Lasename FO Connector FAQs

Lasename for Dynamics 365

The following message can be displayed if the **objectLACSecurityBaseD365FO** is not added to the source-control / repository.

It is not caused by a missing or wrong license file/code.

DLL files such as LACSecurityBaseD365FO.dll are not added automatically and users should add the **LACSecurityBaseD365FO.dll** to their **source control**.

This is similar to any other DLL files which are not automatically added to the source control.
