

Missing Labels After a Lasetnet Connector Upgrade

- 2022-10-19 - Comments (0) - AX 2012 FAQs

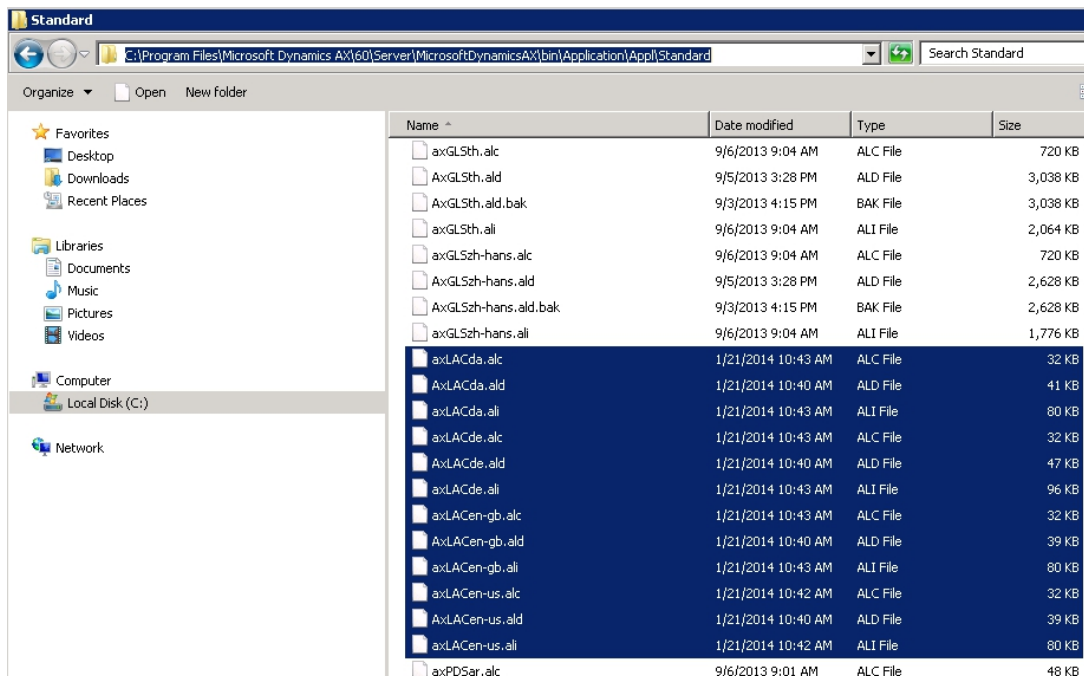

This article provides a solution for missing labels after upgrading Lasetnet Connector for Microsoft Dynamics AX 2012.

Resolution

1. Stop the AOS service(s).
2. Locate the LAC label files (axLAC*.*). These can generally be found in:

C:\Program Files\Microsoft Dynamics
AX\60\Server\MicrosoftDynamicsAX\bin\Application\Appl\Standard

3. Delete all the files named axLACxxx.alx

4. Start the AOS service(s) again.

Additional information

If you are in doubt about having the latest label files, please contact your reseller.
