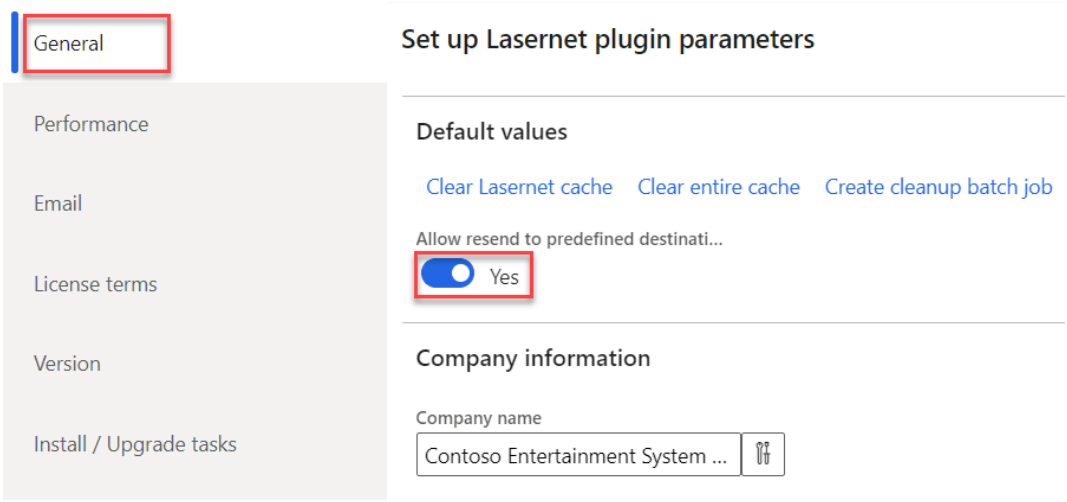
Missing Lasernet Custom Port option in D365 FinOps print selection

Claire Oakey - 2024-03-14 - Comments (0) - Lasernet FO Connector FAQs

Lasernet for Dynamics 365

This article provides a solution for when Lasernet Predefined or Custom Port options in Dynamics 365 FinOps are missing in the print dialog when selecting destinations, and for when the Pre-defined and Custom Print Management Settings are missing when trying to print an invoice.

Solution


Navigate to **Lasernet** > **Setup** > **Parameters** > **General**, then set "Allow resend to predefined destinations" to **Yes.**
