# QT Crash in Lasernet Developer 9 and 10

Harley Britcher - 2022-08-01 - Comments (0) - Lasernet Developer FAQs

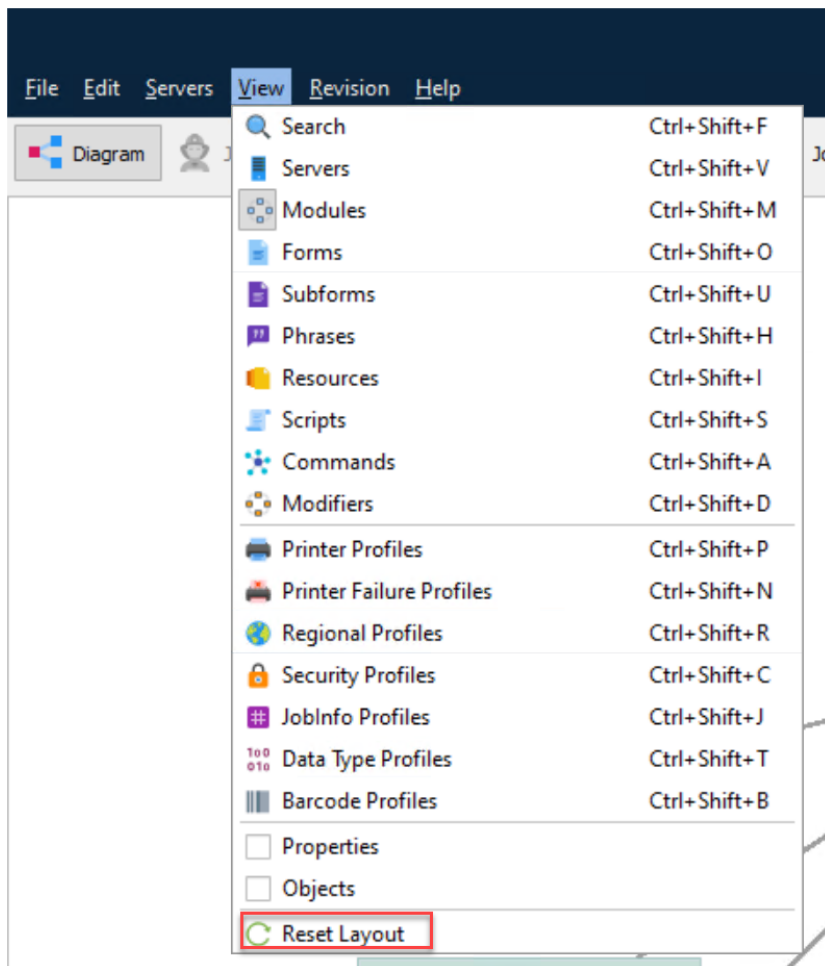

# Lasernet

by Formpipe.

Sometimes when opening Lasernet Developer, the Tool Bar on the top and the Server/Object Menu on the left may disappear.

In order to fix this, on the *Menu Bar*, click **View > Reset Layout**.

This will repopulate the Tool Bar on the top and the Server/Object Menu on the left.
