

Warning: "The report destination is not valid for batch processing."

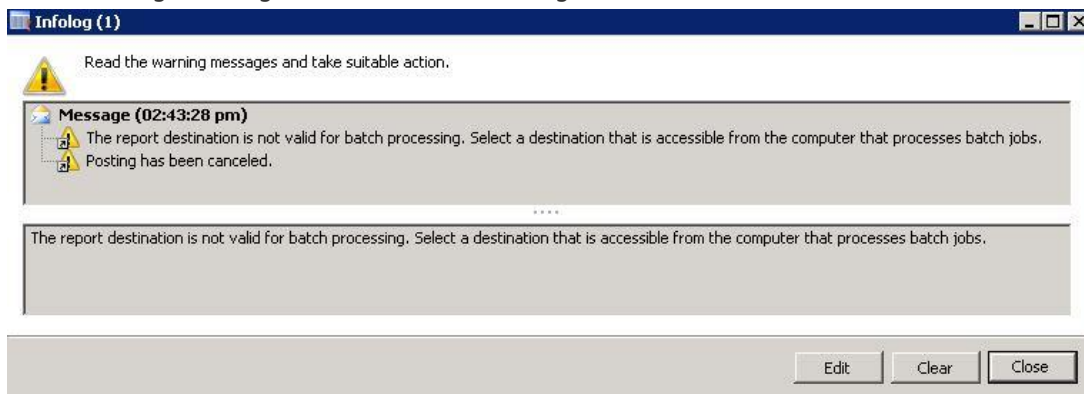

- 2022-10-21 - Comments (0) - AX 2012 FAQs

This article provides a solution for the following warning message that may appear in AX 2012 when configuring a batch job:

"The report destination is not valid for batch processing. Select a destination that is accessible from the computer that processes batch jobs."

This warning message is a standard warning from AX 2012.

Resolution

Batch jobs cannot be printed to Screen or Lasernet screen.

1. Define a different destination.

2. In AX 2012, define all options within the **Printer Setup** dropdown list, **Original** and **Copy**.
