# Which ports need to be unblocked for Lasernet?

Kate Coles - 2022-11-18 - Comments (0) - Lasernet FAQs

This article specifies which ports need to be unblocked.

The following ports are required:

- Lasernet Service --> 3279 / 3280

- Config Server --> 3479/ TCP

- Developer --> 3379/ TCP

Note
For Lasernet 10, the following ports are required:

- 33443

- 3279 (Default), if Lasernet Config Server 10 is running on a standalone server
