Lasernet Connector BC Release Version 3.0.0.7

Release date: 6th October 2020

New Features and Fixes

The purpose of this section is to outline the new features and fixes of Lاسernet Version 3.0.0.7.

- #645 "Send Email" does not add Email Body to an email (Business Central Onpremise version 14).
- #650 Support for Data Formats. You can now control how "Decimal" and "Date" should look for each language and report.
- #651 New function on Report Template Code - "Reset Templates", this will delete and load all reports again.
- #656 Language code is added to the XML file.
- #657 Some fields that we add to reports were calculated. Now we use the field straight from the database.
