# Lasernet for Dynamics 365

Lasernet Connector BC Release Version 3.0.0.7

**Release date:** 6th October 2020

## New Features and Fixes

The purpose of this section is to outline the new features and fixes of Lasernet Version 3.0.0.7.

- #645    "Send Email" does not add Email Body to an email (Business Central Onprem version 14).

- #650    Support for Data Formats. You can now control how "Decimal" and "Date" should look for each language and report.

- #651    New function on Report Template Code - "Reset Templates", this will delete and load all reports again.

- #656    Language code is added to the XML file.

- #657    Some fields that we add to reports were calculated. Now we use the field straight from the database.
