

Lasernet FO Connector 6.15 Prerelease

2021-07-27 - Alex Clemons - Comments (0) - Lاسernet FO Connector News

Update in relation to Lاسernet FO Connector and new Lاسernet FO Connector configuration for Lاسernet 10

The next release of Lاسernet FO Connector is planned for **Thursday 5th of August 2021**, unless we get any critical issue(s).

Currently, we are preparing a new demo setup for Lاسernet FO Connector and Lاسernet 10 and will inform you once this is ready for download in the Formpipe knowledgebase.

We will also inform you if a new version of Lاسernet FO Connector (6.15.0) is required or if it's enough to apply (merge) new objects into the configuration (existing/demo) when using Lاسernet 10.

Enhancements - Lاسernet configurations for LAC365FO

Case no.	Description	Ticket no. Added
223812@LNConfig365FO	Adjustments to the Lاسernet configuration - Print of SSRS files	#17638
