Help us improve the Formpipe Portal!

Formpipe is committed to delivering an effective and performative experience to our users and partners.

As part of that commitment, our teams regularly update the articles, videos and guides on this Portal and review its overall use.

We are happy to announce the release of our **first user questionnaire** to evaluate the usability of our Portal and how to best remain valuable to you.

Please, let us know how to improve and how to provide you with the most relevant content by taking a short survey (**3mins**).
