

Lasetnet 10.10.1 Release Notes

2025-01-10 - Sunil Panchal - Comments (0) - Lasetnet 10 Release Notes

Release version: 10.10.1

Release date: 10th January 2025

Notes

[Software installation files](#) are available.

Maintenance Report

This section briefly describes the enhancements in Lasetnet 10.10.1.

Enhancements

Internal Ref.	External Ref.	Area	Details	Status
449098		Azure Storage	Added support for JobInfo substitution in SAS token settings where the JobInfo values originate from an incoming job. This builds on enhancement 446402 added in Lasetnet 10.10 , which added JobInfo substitution in SAS token settings where the JobInfo values are server JobInfos.	Enhancement

Note

Lasetnet 10.10 also added other enhancements related to Lasetnet integration with Azure Storage. For information about these enhancements, read the [Lasetnet 10.10 Release Notes](#).

Lasetnet 10 System Requirements

For information about Lasetnet 10 system requirements, refer to the [Lasetnet System Requirements](#) page.

Important Information to Read Before Upgrading to Lasetnet 10.10

New Installers, Connections, Sign in, and SDK from Lasetnet 10.2

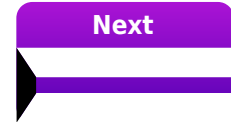

The installation procedure and the configuration procedure in several of the client applications changed at Lasetnet 10.2. There are now separate installers for Lasetnet Server 10 and Lasetnet Developer 10.

If you currently have Lasetnet 10.1.4 or earlier and have not read the release notes for Lasetnet 10.2, it is recommended that you do so before you install Lasetnet 10.10. The information provided there is crucial for upgrading to Lasetnet 10.2 and later, and also

describes changes that affect third-party modules developed with the Lasernet SDK.

How to Get Support

If you encounter difficulty using Lasernet, contact us via the [Create Ticket](#) button in the support portal.
