

## Lasernet 10.10.2 Release Notes

2025-01-24 - Haveela Anil - Comments (0) - Lاسernet 10 Release Notes

**Release version: 10.10.2**

**Release date:** 24th January 2025

### Notes

[Software installation files](#) are available.

### Maintenance Report

This section briefly describes the enhancement in Lاسernet 10.10.2.

#### Enhancements

Internal Ref.	External Ref.	Area	Details	Status
450606		Printer Service	Added support for Shared Access Signature (SAS) authentication with Azure Storage. The SAS connection properties can be configured in the Config Server, or the Printer Service module and the Printer Service app can read SAS connection properties from JobInfos.	Enhancement
451785		Azure Storage	From Lاسernet 10.10, the Azure Storage Input module and the Azure Storage modifier could set the following JobInfos. From Lاسernet 10.10.2, the Azure Storage modifier no longer sets them: <ul style="list-style-type: none"><li>- FullFilename</li><li>- Filename</li><li>- FilenameWithoutExt</li><li>- Extension</li><li>- Filesize</li></ul>	Enhancement
451568		Azure Storage	Development Storage functionality for Azure Storage was not supported in Lاسernet 10.10 and later.	Fixed
451568	42457	Azure Storage	Inserting a message in the Azure Storage Queue resulted in an encoding error.	Fixed

#### Note

Lاسernet 10.10 and Lاسernet 10.10.1 added other enhancements related to Lاسernet’s integration with Azure Storage. For information about these enhancements, read the [Lasernet 10.10 Release Notes](#) and the [Lasernet 10.10.1 Release Notes](#).

### Lasernet 10 System Requirements

For information about Lاسernet 10 system requirements, refer to the [Lasernet System Requirements](#) page.

# Important Information to Read Before Upgrading to Lasernet 10.10

New Installers, Connections, Sign in, and SDK from Lasernet 10.2

The installation procedure and the configuration procedure in several of the client applications changed at Lasetnet 10.2. There are now separate installers for Lasetnet Server 10 and Lasetnet Developer 10.

If you currently have Lasetnet 10.1.4 or earlier and have not read the release notes for Lasetnet 10.2, it is recommended that you do so before you install Lasetnet 10.10. The information provided there is crucial for upgrading to Lasetnet 10.2 and later, and also describes changes that affect third-party modules developed with the Lasetnet SDK.

## How to Get Support

If you encounter difficulty using Lasetnet, contact us via the [Create Ticket](#) button in the support portal.
