Maintenance Report

This section is an overview of the fixes and features included with this version.

If you encounter difficulty while using Lasetnet, please contact us via the **Create Ticket** button in the support portal.

| Internal Ref. | External Ref. | Area | Details | Status |
|---------------|---------------|-------------------|---|------------------|
| 319679 | - | Azure Service Bus | Create n/4 threads for the batch pool where n is number of cores to increase speed for multiple batches for servers with 8 cores (2 threads) and 16 cores (4 threads) | Feature enhanced |

| | | | | |
|----------------|---|---------------------------|--|------------------|
| 305966 | - | Azure Storage | Fixed a UI issue where the Test Connection button was shown on top of Connection Tab, instead of in the lower bar | Fixed |
| 309188 | - | Client app | Added a feature to show and edit a regional profile, assigned to a job by an OCR Engine, in column views for an OCR Field defined as a Date type | Feature enhanced |
| 306699, 307349 | - | Client app | Lasernet OCR, System and Job Tracking profile bands have been re-organized in UI | |
| 328699 | - | Client app | Identifier value is now only changed for the selected job row and not for other job rows matching same AutoCapture or OCR Forms | Feature enhanced |
| 317353 | - | Config Server | Instance names were case-sensitive | Fixed |
| 313301 | - | Developer | Added support for duplicate and copy/paste to Criteria dialog for a Destination added to a module | Feature enhanced |
| 312547 | - | Developer | Added a files column in the Resources file folder view to show number of files within a folder | Feature enhanced |
| 312075 | - | Developer | Added support for export / import of fonts stored in the Resources\Fonts folder | Feature enhanced |
| 322867 | - | Developer | The form names were sometimes grayed out when multi server instances are present in a configuration | Fixed |
| 296964 | - | Form Editor / Form Engine | Added combining support to CSV as output format, to support a more complex CSV structure based on individual sheets in the same form | Feature enhanced |
| 325773 | - | DM Upload | Expanded authentication options by adding support for API Keys and OAuth2 (for SSO environments) | Feature enhanced |
| 303632 | - | Form Editor / Form Engine | Added a new setting "Allow further form matching if no sheets are matched" to the Form Criteria dialog for forms with XML as input format | Feature enhanced |
| 223499 | - | Form Editor | Added support for a "Keep source formatting" or "Keep text only" dialog when doing a copy/paste or a merge of two rearranges having different styles | Feature enhanced |
| 306339 | - | Form Editor | Objects are merged when selecting the Ctrl-key + arrows or drag-and-drop to another object | Feature enhanced |
| 306337 | - | Form Editor | Added an Auto alignment checkbox in the View submenu to turn on/off the auto alignment functionality for EMF/PDF formats. A feature to avoid that position is not always set to an integer when moving an object to a new Y position with arrow keys up/down | Feature enhanced |

| | | | | |
|--------|-------|---------------------|---|------------------|
| 295432 | - | Form Editor | Added support for colored QR barcodes. This enables support for white QR barcodes printed on Zebra label printer mounted with black labels | Feature enhanced |
| 316083 | - | Form Editor | Several improvements added to the in-line editing control | Feature enhanced |
| 302074 | - | Form Editor | Added placeholder text to required fields for Swiss QR barcodes | Feature enhanced |
| 298558 | - | Form Editor | Optimized moving an object by arrow key when aligning to other objects in EMF/PDF forms | Feature enhanced |
| 296716 | - | Form Editor | Added a Base64 property in Sheet Options to encode output JobData | Feature enhanced |
| 310703 | - | Form Editor | Removed non-supported actions, Move or Copy sheets, from the Cells menu in the Spreadsheet editor | Fixed |
| 322502 | - | Form Editor | A crash occurred when attempting to open another configuration after RichText\DOCX form was previewed | Fixed |
| 322460 | - | Form Editor | The cursor used to show table columns did not change to the Move Right/Left cursor mode for EMF output | Fixed |
| 313439 | - | JSON Web Token | Added support for JSON Web Token viewer in module view | Feature enhanced |
| 314408 | - | JavaScript | Added new function jobinfoIndexOf to search through a JobInfo array on a Job looking for a particular value | Feature enhanced |
| 321739 | 28721 | Mail Output | A crash occurred when "Do not insert job data in an attachment" was enabled | Fixed |
| 303542 | - | Monitor app | Disabling non-supported tabs when a log file is opened from disk | Feature enhanced |
| 317911 | - | OCR Editor | Fix for scrollbar being unable to scroll to show all columns or rows for documents in landscape | Fixed |
| 315970 | - | OCR Editor | Added support for editing of Exceptions via property editor | Feature enhanced |
| 311618 | - | OCR Editor | Identifier view in OCR Editor app is sorted alphabetically like the Client app | Feature enhanced |
| 316258 | - | OCR Editor / Engine | Faster scrolling support and processing of OCR Forms for large documents | Feature enhanced |
| 316015 | - | OCR Editor / Engine | Optimized speed when running the Understand tool and AutoCapture feature | Feature enhanced |
| 316874 | - | OCR Editor / Engine | Optimized the algorithm for recognition of date formats in documents to auto set a regional profile for an OCR Field defined as a Date type | Feature enhanced |

| | | | | |
|--------|-------|----------------------------------|--|------------------|
| 305017 | - | OCR Editor / Engine | Added long dates to the list of built-in date formats | Feature enhanced |
| 323551 | - | OneDrive | Incoming files were not processed properly due to UTF-8 characters not working | Fixed |
| 315231 | - | PDF to Text | Default value for Extract metadata settings in PDF to Text module is now set to "Not active", which is the recommended setting in a production environment for highest speed | Feature enhanced |
| 315872 | - | Printer Failure Profile | Added a new JobInfo named PrinterFailureMessage, which contains the error message when a print job fails due to a Printer Failure Profile rule | Feature enhanced |
| 303479 | 26657 | Printer Output / Printer Service | Fixed an issue with Windows printer names containing special characters, like hashmarks and slashes | Fixed |
| 317451 | 28248 | Script Editor | Added support for searching outside functions and within function name | Feature enhanced |
| 313708 | - | Tesseract OCR | Optimized the 'Auto Rotate' detection feature to obtain readable rotation in documents | Feature enhanced |
| 316902 | - | Web Server / Service | Added unique name handling for methods | Feature enhanced |
| 316989 | - | Web Server / Service | Disabled the OK button when editing method if name is not unique within the web service | Feature enhanced |
| 313300 | - | Web Server / Service | Deleting a destination would afterwards select item above and not the next item in the list | Feature enhanced |
| 313303 | - | Web Server / Service | Added support for duplicate and copy/paste to the method list for web services | Feature enhanced |
| 320381 | 27621 | XML Transformer | There was an issue with transformations replacing elements with text nodes | Fixed |
