Maintenance Report

This section is an overview of the fixes and features included with this version.

If you encounter difficulty while using Lasetnet, please contact us via the **Create Ticket** button in the support portal.

Internal Ref.	External Ref.	Area	Details	Status
319679	-	Azure Service Bus	Create n/4 threads for the batch pool where n is number of cores to increase speed for multiple batches for servers with 8 cores (2 threads) and 16 cores (4 threads)	Feature enhanced

305966	-	Azure Storage	Fixed a UI issue where the Test Connection button was shown on top of Connection Tab, instead of in the lower bar	Fixed
309188	-	Client app	Added a feature to show and edit a regional profile, assigned to a job by an OCR Engine, in column views for an OCR Field defined as a Date type	Feature enhanced
306699, 307349	-	Client app	Lasernet OCR, System and Job Tracking profile bands have been re-organized in UI	
328699	-	Client app	Identifier value is now only changed for the selected job row and not for other job rows matching same AutoCapture or OCR Forms	Feature enhanced
317353	-	Config Server	Instance names were case-sensitive	Fixed
313301	-	Developer	Added support for duplicate and copy/paste to Criteria dialog for a Destination added to a module	Feature enhanced
312547	-	Developer	Added a files column in the Resources file folder view to show number of files within a folder	Feature enhanced
312075	-	Developer	Added support for export / import of fonts stored in the Resources\Fonts folder	Feature enhanced
322867	-	Developer	The form names were sometimes grayed out when multi server instances are present in a configuration	Fixed
296964	-	Form Editor / Form Engine	Added combining support to CSV as output format, to support a more complex CSV structure based on individual sheets in the same form	Feature enhanced
325773	-	DM Upload	Expanded authentication options by adding support for API Keys and OAuth2 (for SSO environments)	Feature enhanced
303632	-	Form Editor / Form Engine	Added a new setting "Allow further form matching if no sheets are matched" to the Form Criteria dialog for forms with XML as input format	Feature enhanced
223499	-	Form Editor	Added support for a "Keep source formatting" or "Keep text only" dialog when doing a copy/paste or a merge of two rearranges having different styles	Feature enhanced
306339	-	Form Editor	Objects are merged when selecting the Ctrl-key + arrows or drag-and-drop to another object	Feature enhanced
306337	-	Form Editor	Added an Auto alignment checkbox in the View submenu to turn on/off the auto alignment functionality for EMF/PDF formats. A feature to avoid that position is not always set to an integer when moving an object to a new Y position with arrow keys up/down	Feature enhanced

295432	-	Form Editor	Added support for colored QR barcodes. This enables support for white QR barcodes printed on Zebra label printer mounted with black labels	Feature enhanced
316083	-	Form Editor	Several improvements added to the in-line editing control	Feature enhanced
302074	-	Form Editor	Added placeholder text to required fields for Swiss QR barcodes	Feature enhanced
298558	-	Form Editor	Optimized moving an object by arrow key when aligning to other objects in EMF/PDF forms	Feature enhanced
296716	-	Form Editor	Added a Base64 property in Sheet Options to encode output JobData	Feature enhanced
310703	-	Form Editor	Removed non-supported actions, Move or Copy sheets, from the Cells menu in the Spreadsheet editor	Fixed
322502	-	Form Editor	A crash occurred when attempting to open another configuration after RichText\DOCX form was previewed	Fixed
322460	-	Form Editor	The cursor used to show table columns did not change to the Move Right/Left cursor mode for EMF output	Fixed
313439	-	JSON Web Token	Added support for JSON Web Token viewer in module view	Feature enhanced
314408	-	JavaScript	Added new function jobinfoIndexOf to search through a JobInfo array on a Job looking for a particular value	Feature enhanced
321739	28721	Mail Output	A crash occurred when "Do not insert job data in an attachment" was enabled	Fixed
303542	-	Monitor app	Disabling non-supported tabs when a log file is opened from disk	Feature enhanced
317911	-	OCR Editor	Fix for scrollbar being unable to scroll to show all columns or rows for documents in landscape	Fixed
315970	-	OCR Editor	Added support for editing of Exceptions via property editor	Feature enhanced
311618	-	OCR Editor	Identifier view in OCR Editor app is sorted alphabetically like the Client app	Feature enhanced
316258	-	OCR Editor / Engine	Faster scrolling support and processing of OCR Forms for large documents	Feature enhanced
316015	-	OCR Editor / Engine	Optimized speed when running the Understand tool and AutoCapture feature	Feature enhanced
316874	-	OCR Editor / Engine	Optimized the algorithm for recognition of date formats in documents to auto set a regional profile for an OCR Field defined as a Date type	Feature enhanced

305017	-	OCR Editor / Engine	Added long dates to the list of built-in date formats	Feature enhanced
323551	-	OneDrive	Incoming files were not processed properly due to UTF-8 characters not working	Fixed
315231	-	PDF to Text	Default value for Extract metadata settings in PDF to Text module is now set to "Not active", which is the recommended setting in a production environment for highest speed	Feature enhanced
315872	-	Printer Failure Profile	Added a new JobInfo named PrinterFailureMessage, which contains the error message when a print job fails due to a Printer Failure Profile rule	Feature enhanced
303479	26657	Printer Output / Printer Service	Fixed an issue with Windows printer names containing special characters, like hashmarks and slashes	Fixed
317451	28248	Script Editor	Added support for searching outside functions and within function name	Feature enhanced
313708	-	Tesseract OCR	Optimized the 'Auto Rotate' detection feature to obtain readable rotation in documents	Feature enhanced
316902	-	Web Server / Service	Added unique name handling for methods	Feature enhanced
316989	-	Web Server / Service	Disabled the OK button when editing method if name is not unique within the web service	Feature enhanced
313300	-	Web Server / Service	Deleting a destination would afterwards select item above and not the next item in the list	Feature enhanced
313303	-	Web Server / Service	Added support for duplicate and copy/paste to the method list for web services	Feature enhanced
320381	27621	XML Transformer	There was an issue with transformations replacing elements with text nodes	Fixed
