Lasernet

Lasernet Release Version 9.10.2

Release date: 25th November 2020

New Features and Fixes

The purpose of this section is to outline the new features and fixes of the components of Lasernet Version 9.10.2

Lasernet Form Editor

- Fixed a missing combobox to select JobInfo for the "Attachment JobInfo" option in the Sheet Option -> XHTML settings for XHTML output format.
- JobInfo Criteria for output destinations now functions for JSON input format.
- The Form Engine can now process XML input jobs that included comment tags in XML structure like <!--This is a valid comment. -->.

OCR Engine

- Added database support for multiple OCR Engines running on the same server for saving of statistics for processed OCR Forms which were introduced in 9.10.0.
