New Features and Fixes

The purpose of this section is to outline the new features and fixes of the components of Lاسernet Version 9.13.3.

| Internal Ref | External Ref | Area | Details | Status |
|--------------|--------------|---------------------------|---|-------------------|
| 281207 | - | Autoform DM Upload Module | Module has been updated with fix for a security vulnerability identified in Log4Net.dll | Security enhanced |
| 230429 | - | Developer | All changes disappeared from a configuration when they were not committed and the configuration was renamed | Fixed |
| 271966 | - | Developer/Module Tester | Module Tester crashed in Engine/Output modules like Tesseract because of missing PublicID | Fixed |
| 275003 | - | Form Editor | Rearranges containing a large number, with 24 or more digits, could cause a crash when rearrange was set as a number type | Fixed |

| Internal Ref | External Ref | Area | Details | Status |
|---------------------|---------------------|-----------------|--|------------------|
| 269464 | Deskpro 22300 | Form Editor | WMF & SVG images sometimes rotated the wrong way | Fixed |
| 276512 | - | Form Editor | The 'Select Grab File(s)' dialog window closed incorrectly when canceling the information dialog | Fixed |
| 274434 | - | Form Editor | Icon for module type was missing in the destination list view | Fixed |
| 274238 | - | Form Editor | Incorrect data was added to the "UD- AdressTyp" for Swiss QR Codes | Fixed |
| 269178 | - | Form Editor | In rare scenarios, Object was still locked even though the first multi-user had closed the object | Fixed |
| 276642 | Deskpro 23087 | Lasernet Client | Removed default values for instance name and credentials to avoid a time-out showing deleted items before refreshing new item | Fixed |
| 281479 | - | Lasernet Server | There was an issue in the job engine where read rights were incorrectly used instead of write rights when releasing a queue in Lasernet Client | Fixed |
| 196753 | | PDF Engine | Reduced memory usage when creating PDF files | Feature enhanced |
| 271703 | - | PDF Extract | Handling extraction of meta fields that corrupted log if JobInfo value extracted from PDF included a null character | Fixed |
| 271588 | - | PDF to Text | Module failed to decode some text | Fixed |
| 276454 | - | PDF to Text | Double spaces could occur between text strings in jobs after running Tesseract OCR (Forced mode) and PDF to Text modifier | Fixed |

| Internal Ref | External Ref | Area | Details | Status |
|--------------|---------------|------------|---|-------------------|
| 281085 | Deskpro 23759 | Web Server | CVE/Vulnerability in Lasernet V9.x and lower when Client is enabled. Get command can give access to Windows O/S files | Security enhanced |
