Lasernet

Lasernet Release Version 9.9.1

Release date: 20th May 2020

New Features and Fixes

The purpose of this section is to outline the new features and fixes of the components of Lasernet Version 9.9.1

Lasernet Form Editor

- Fixed an issue with a missing link to Master Sheet after export/import of forms that contains a region in the conditional area.

CSV to XML

- Fixed a memory leak when processing CSV input to output.

Outlook Mail

- Support for incoming emails which contain a null character in the email subject instead of an empty string.
