Maintenance report

This page describes the bug fix included in Lasetnet BC Connector 4.3.2.3.

Internal Ref.	Issue /Feature	Details	Status
#440508	The Printer Selection does not consider the UserId .	When adding a report Destination to a Customer/Vendor card using <Default> From Lasetnet Printer Selection , the system does not consider the UserId , causing either the job not to be processed or the wrong printer to be chosen.	Bug fix

The screenshot shows the Dynamics 365 Business Central interface for a Customer Card. The customer is John Haddock Insurance Co. (30000). The Lasetnet section is visible, showing various settings and a table of Destinations. The 'Print' destination is highlighted with a red box.

Document Type	Print Method	Selected Destination	File Format	Skip Attachments	Active
Sales Order	Send E-Mail	<Default> (michael.wibe@formpipe.com) Click to Open E...	.pdf	<input type="checkbox"/>	<input type="checkbox"/>
