Lasetnet for Dynamics 365

We are happy to announce that the new Installation Guide for the Lasetnet Connector for Microsoft Dynamics Finance & Operation has been released!

The new guide reflects the requirements of both Formpipe hosted and self hosted customers.

The guide walks users through the installation process, from the first step - populating a blank FO environment - to the final one - printing test reports as quickly and easily as possible. Users will immediately start noticing the benefits of their Lasetnet for Dynamics solution.
